Paniagua's Enterprises, Inc. (PEI) is a full-service communications construction company headquartered in Baltimore, Maryland. Founded in 1992 by Jaime Paniagua, PEI is a minority-owned firm specializing in utility and telecommunications infrastructure. The company provides fully integrated solutions in outside plant (OSP), inside plant (ISP), electrical systems, and site preparation, offering design, engineering, construction, and maintenance services tailored to client needs.

With expertise in aerial and underground cabling, fiber splicing, structured cabling, security systems, EV charging infrastructure, intelligent traffic systems, and ADA-compliant restoration, PEI has completed more than 598 projects for over 1,000 clients nationwide. Trusted by leading companies such as Verizon, Comcast, AT&T Broadband, and Time Warner, PEI has built a strong reputation for delivering complex, large-scale infrastructure solutions across commercial, municipal, and institutional sectors.

Jaime Paniagua is President/CEO of Paniagua's Enterprises, Inc., a full-service communications construction company headquartered in Baltimore, Maryland. PEI has served clients large and small, including projects all over the state of Maryland. He is recognized as being one of the subject matter experts in the communications construction arena. He brings more than twenty-three years of experience in the telecommunications field.
